

Year 2 Autumn 2021 Theme: TITANIC ADVENTURES

We will develop our historical and geographical vocabulary whilst referring to human and physical features of the coast. We will consider the cost of past adventures and how embarking on journeys can impact society. A focus will be safety at sea!

The journey will begin with our Stunning Start day, where you will purchase a ticket and climb aboard the Titanic. We will reveal whether you will be dining in first, second or third class, before discussing differences and preferences. We will look at adventure artefacts, timeline of events and create artistic representations of encounters during vast adventures.

As we are changing the way that we showcase our themes, pop back at the end of Autumn term to see our End-of-theme celebration work.
